## Cloud Support Activities - AEM

### Governance for AEM as a Cloud Service

Technical & operational governance to assist AEM as a Cloud Service Customers in adhering to industry standards and best practices for AEM as a Cloud Service

### Value-added Services for AEM as a Cloud Service

Identify, review and provide recommendations on customized solution adoption areas that have opportunities for optimization

### Customization Best Practices for AEM as a Cloud Service

Drive adoption of customization best practices and core components in AEM as a Cloud Service

### Launch Advisory

For customers implementing a **new Adobe Experience Cloud solution**, Launch Advisory is a core set of advisory services and recommendations that are proven to support successful deployments and accelerate time-to-value.

Kickoff    Define    Design    Go-Live    Post Launch

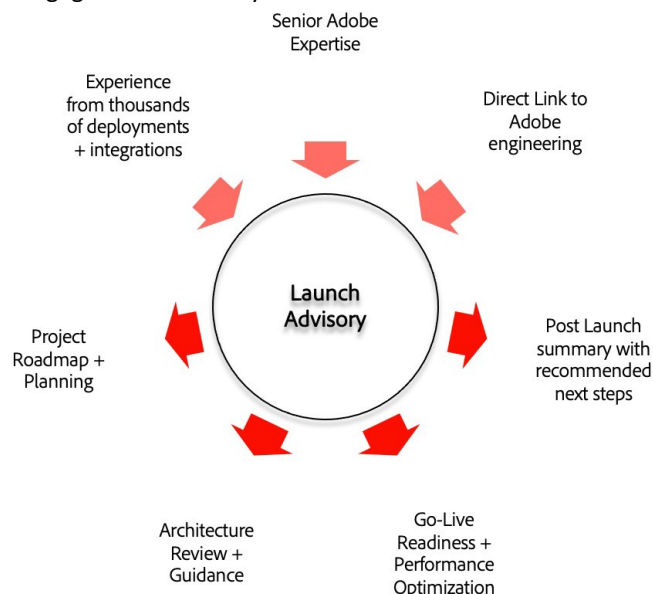

Adobe solution experts help validate requirements, architecture, development process, and launch readiness reviews with best practice-based guidance to customers and implementation partners.

Launch Advisory will align with your project schedule through common milestones (Kickoff, Define, Design, Go-live and Post Launch) to guide, validate, assess and make recommendations.

Key Deliverables include:

- Kickoff (including project collaboration plan) deck
- Assessment & recommendations document(s)
- Engagement summary

### Field Service Activities

Field Services are used for **quick resolution**, focused customer success and accelerated **time-to-value**. If Launch advisory is active there will be **no Field Services in year 1** for any solution product covered by a Support contract.

As an Elite customer, you are eligible for **4 activities per year** from the following two tracks: **Technical** and/or **Strategic**.

**Technical Track Activities** ensure customers are technically sound and maximizing their tool adoption. Specifically, these types of activities include support and recommendations related to platform configurations, integrations and troubleshooting

Types of technical activities available::

- ✓ Health audit
- ✓ Platform audit
- ✓ Feature set enablement
- ✓ Basic integrations and configurations
- ✓ Customer solution troubleshooting
- ✓ Cloud service support

**Strategic Track Activities** locate opportunities to ensure value is being realized from a customer's Adobe solutions. They include support recommendations related to strategy, measurement and maturity to drive value realization across one or more Adobe solutions.

Types of strategic activities available::

- ✓ Maturity Roadmap
- ✓ Use case development/measurement
- ✓ Reporting & analysis
- ✓ Best practices enablement

## Resources

<a href="#">Experience League</a>	Experience League is how Adobe helps businesses achieve the value they expect from their Adobe investment. It’s the unified place where customers can learn, connect, and grow along a personalized path to success that includes self-help tutorials, product documentation, instructor-led training, community and technical support.
<a href="#">Training</a>	Adobe Digital Learning Services courses are accessible from Experience League. Learning courses integrate both on-demand and instructor-led lessons. Here you can accrue skills that have recognized market value and position them to drive success in your organizations.
<a href="#">Production Issues &amp; System Outages</a>	Status.adobe.com conveys the health information of all Adobe products and services that are deployed in multi-tenant environments. Customers can choose their subscription preferences to get email notifications whenever Adobe creates, updates or resolves a product event. This can include scheduled maintenance or service issues of varying levels of severity.
